Mobile Food Vendor Guide

How to make your business stormwater-friendly

Disposing of Waste

Solid Waste: Bring trash cans and bags to pick up and dispose of all solid waste in your area.

Wash Water: Wash in a contained area that has been bermed up to contain the wash water. Bring an empty container to store the wash water.

Toxic Materials: Contain toxic items safely in a tight-fitting jar and call (909) 386-8401 for proper hazardous waste disposal and pickup.

Toxic items may include:

- Cooking oil and grease
- Automotive fluids (antifreeze, motor oil)
- Batteries
- Propane barbecues tanks

Managing Spills

- Place a tarp under food stations or other areas with the potential for pollution such as used oil and grease spills.
- Use dry methods for spill cleanup, sweeping, and using cat litter instead of hosing.
- Have a spill kit available to clean up spills.
- To report toxic spills, call (800) 33 TOXIC

Operating Safely

- Ensure activities are conducted in a lawful location.
- Keep operations at least 3 feet from the public right-of-way.
- Follow San Bernardino County Environmental Health rules regarding safe food handling.
